RE: CCHS Building Committee

Dear members of the Concord-Carlisle Regional School Committee:

I have been proud to serve as a Co-Chair of the Concord-Carlisle High School Building Committee. The Committee is rich in expertise, the design and construction team is strong, and the building design is one that will serve students and the Community for many years to come.

My goal for participation on the committee was to see the project approved by both towns, which was accomplished with overwhelming support last fall. I had intended to end my tenure on the Committee last April, once the major design direction was complete and to coincide with the end of my term on the School Committee. Given the issues we faced over the past 2 months, I decided to stay on to see to their resolution. With the new pricing drawings submitted last Friday, I believe that the project is well on its way in meeting our scope and budget goals.

Now I feel it is the appropriate time for me to step down from the Committee.

Thank you for the opportunity to serve the District and the honor of working on such an important project. I will continue to be available as a resource as needed, and I very much look forward to the ribbon cutting ceremony.

Sincerely,

Jerry Wedge
